ASAD AHMED SIDDIQUI

Phone: +91 7013623365 | Email: siddiquiasad851@gmail.com | LinkedIn

Professional Summary

A highly skilled Frontend Developer with expertise in React.js, Redux, Next.js, and modern web technologies. Demonstrated success in leading the development of scalable applications, optimizing user experience, and improving productivity in diverse industry settings. Proficient in full-stack collaboration, project management, and leveraging cutting-edge technologies to deliver impactful business solutions.

Technical Skills

- Frontend: React.js, Next.js, Redux, Redux Toolkit, Redux Saga, React Hooks, Material-UI (MUI), Bootstrap, Tailwind CSS, SCSS, Responsive Design, Redux Toolkit Query
- Backend: REST APIs,ExpressJS, NodeJS,MongoDB
- Tools: Git, AWS CI/CD, Webpack
- Languages: JavaScript, HTML, CSS, JSX

Founding Engineer (SDE-1) | Unsuit Legal Technologies | Nov 2023 - Present

- Led the development of a frontend SaaS application from scratch using React, delivering an intuitive and seamless experience for legal professionals.
- Implemented multi-role authentication (admin, user, super admin) on the frontend, enhancing security and role-based access control.
- Built features for project creation and frontend-managed file uploads from OneDrive, Google Drive, and Dropbox, with efficient data indexing for smooth retrieval.
- Developed a robust document management interface with CRUD operations, document splitting, and merging functionalities, streamlining document handling for users.
- Centralized API call management on the frontend using custom React hooks, increasing code readability by 50% and reducing errors in API requests.

Founding Engineer (SDE-1) | Caresync | Nov 2022 - Nov 2023

- Spearheaded frontend development from scratch using React, establishing a scalable architecture.
- Developed authentication-based UI components to improve security in user registration and login.
- Leveraged React.js, Redux Toolkit, React-Router, HTML5, and SASS to build responsive, visually appealing web pages.
- Implemented CI/CD pipelines using AWS for automated deployment.

Achievements & Impact

- Reduced document review time for legal professionals by 20 man-hours per week through efficient document management.
- Enhanced productivity by designing a clean, intuitive UI for law firms.
- Contributed to better collaboration between frontend and backend teams, optimizing delivery timelines.
